

cardboard car

Make a cardboard car where you can actually sit in and have fun.

What you need:

- Cardboard Box
- Texta Markers
- Paper Plates (4)
- Foil Plates (2 little ones)
- Pieces of Cardboard
- Stapler

What you need to do:

Start by cutting off the top and bottom of the cardboard box, but leave the flap at the front.

Once you have done all the cutting, paint and decorate the box with Texta markers, glitter glue, colourful bits of paper or cotton.

Then stick paper plates on both sides of the box for wheels and the foil plates on the front for headlights.

Finally, staple 2 straps, made from additional pieces of cardboard, to fit over your shoulder to hold your car up.

Finished – Have fun!!!

colour it ... with Texta
