

Create an amazing picture with oil pastels and place it in a frame as a gift.

What you need:

- Paper
- Texta Oil Pastels
- Spoon or Paint Brush

What you need to do:

Colour a whole piece of paper with every colour oil pastel, except black. You may mix the colours if you like. You need to make sure that the layer is thick.

Then cover all the colours with a black oil pastel evenly. Once all the bright colours have been covered with the black pastel, you may use a spoon handle or a paint brush end to create a fantastic picture by scratching away the black, leaving the bright colours shine through.

You may then place your work of art into a frame for a perfect gift.

colour it ... with Texta
