

Shopping trip

Complete all additions in the picture below to lead the Texta Kids through their shopping trip. For each correct answer the Texta Kids can pick up the prize on the corresponding field.

You must first complete all additions, then go back and compare your answers against the given solutions on the bottom of the page. Then add up your prize value and the person with the most points wins.

You have 5 minutes to complete as many additions as you can. You may then try to beat your first score and also reduce the time allowed to complete all questions.
