

# Wet chalk drawings

Create fantastic drawings with wet chalk – you'll love the effect.

What you need:

- Texta Coloured Chalk Sticks
- Water
- White or Coloured Paper

What you need to do:

Soak the chalk sticks in water for approximately 10 minutes. When time is up you may take them out and begin to create your unique work of art – let your imagination run wild.

Just remember not to press too hard because the chalk will break easily after being soaked in water.
